Preliminary CV19 Protocol

Subject to additional guidance that may become available before the start of Camp, the following protocols will be in place for the 2022 Camp:

- We will continue to have a smaller number of Campers in each Camp.
- We will continue to provide daily sanitation to every classroom and the general campus facilities.
- We will encourage each camper to wash their hands with soap and water or use hand sanitizer after using the restroom, before and after eating, transitioning to another camp room, or leaving campus for the day.
- We will continue the use of water stations in lieu of water fountains.
- We will encourage, but not require, the use of face masks for staff, parents, and Campers when inside a Camp Room or the Camp Office. (5 years and older)

We encourage you to take the 'optional face mask' protocol into consideration in your decision to register your child at Imagine That Summer Camp this year. A final face mask determination will be made mid to late May, and, if any change is needed, you will be notified of any change by E-mail before the start of Camp.
